

FRIEDRICH-EUGENS-GYMNASIUM

Knowing what matters.

STUTTGART, GERMANY / EST. 1796

Founded by Duke Friedrich Eugen of Württemberg in 1796, FEG is a secondary school in Stuttgart preparing students for the Abitur and further study. Its tradition in science and modern languages combines academic ambition with personal growth and responsible citizenship.

SCHOOL LEADERSHIP

PRINCIPAL

OStD Dr. Stefan Wilking

DEPUTY PRINCIPAL

StD Christian Rehm

LEADERSHIP TEAM & HEADS OF DEPARTMENT

Dr. Sebastian Fettig, Irene Conrad, Dr. Stefan Wilking, Jochen Baeuerle, Christian Rehm, Jana Kirsch, Fritzie Timmermann, Tobias Roller

INDEPENDENT THINKING

Strong subject knowledge, critical reflection and study skills help students learn independently and take responsibility for their progress.

RESPECT & PARTICIPATION

Students help shape school life. Democratic values, cultural understanding and action against racism and exclusion guide our community.

SCIENCE & TECHNOLOGY

A MINT-EC member since 2009/10, FEG offers NwT, advanced science courses, research opportunities and practical STEM clubs.

LEARNING BEYOND SCHOOL

Porsche and Fichtner are education partners. Our specialist NwT centre gives students hands-on experience in process engineering.

Academic ambition. Independent thinking. A community built on respect.

Our school. A wider world.

Four exchange programmes bring languages and cultures to life through host-family stays, school visits and shared experiences.

France

EXCHANGE SINCE 2003

Collège Philippe de Vigneulles, Metz

Grade 9 students host French partners in autumn and visit Metz for a week in spring. School and family life, regional visits, Verdun and the Robert Schuman centre explore our shared history and Europe.

India

EXCHANGE SINCE 2009

Mayoor School, Ajmer, Rajasthan

An annual exchange offers two weeks as part of an Indian host family. Students discover everyday life and a different culture, with visits to major sights enriching the experience.

USA

EXCHANGE SINCE 2020

Spring-Ford Area Senior High School, Royersford, Pennsylvania

Students spend a week with an American family and experience high school life. The location near Philadelphia also allows visits to Washington, D.C. and New York City.

Spain

EXCHANGE SINCE 2023

Institut Ramon Barbat, Vila-seca

A week with a Spanish host family offers insight into life at a Catalan school. Highlights include Barcelona and Tarragona, with its Roman remains and ancient aqueduct.

CLASS TRIPS: LEARNING THROUGH EXPERIENCE

Ski trips, a trip to London and a visit to Berlin combine discovery with shared experiences, helping students grow in confidence and strengthen their class community.

Skills for life, step by step

GRADES

5-6

Belong & collaborate

Class sessions build confidence, respectful communication and peaceful conflict resolution. Class councils give students a voice.

GRADES

5 / 7 / 11

Learn how to learn

Dedicated training develops independent study, teamwork, research and presentation skills, then focus and goal-setting for demanding tasks.

GRADES

10 & beyond

Explore the future

A Grade 10 work placement (BOGY), application training, university visits and individual guidance help students plan their next steps.

A one-week social placement builds empathy through service in community organisations.
